

## HAMMERGLASS

## HIGH SECURITY

### Bullet Resistant Hammerglass

**Hammerglass Ballistic Protection offers a unique, lightweight bullet resistant protection for premises that require high security measures such as embassies, government buildings, banks, military establishments, VIP residences and more.**

### Blast Resistant Hammerglass

**Hammerglass Explosion Protection is a glazing solution compatible with a building's facade for use in sensitive locations where it is imperative to safeguard against break-ins, vandalism and blasts.**

### BULLET PROTECTION SPECIFICATION

- Certified to BR4-NS and BR6-NS (no splinter) standard providing high level protection.
- Mounted in stainless steel bullet-proof reinforced partitions (security class FB4 and FB6, EN 1522).
- Thinner and lighter than comparable glass solutions.
- 5 year warranty.

### EXPLOSION PROTECTION SPECIFICATION

- Architecturally compatible steel frame holds glazing in position.
- Splinter-free, lighter and thinner than comparable glass.
- Classification EXR1 and EXR2 (EN 13123/EN 13124-2).
- 5 year warranty.
